

## Products

- Phased-array units
- Phased-array probes
- Simulation software

### NDT phased-array products

- M2M phased-array systems
- Imasonic conventional and phased-array ultrasonic probes
- CIVA simulation software

## Services

- Customization
- Probe design
- Modeling
- Training

### NDT phased-array services

- Development of customized systems
- Probe design and specification
- Consulting (NDT procedure design and evaluation)
- NDT modeling and signal processing
- Training and technical support
